## 1.1 Project Windows: Main Window

The first window will display a welcoming message and a menu containing two options ( a visitor or a librarian) and the next window to be displayed depends on the user's choice.

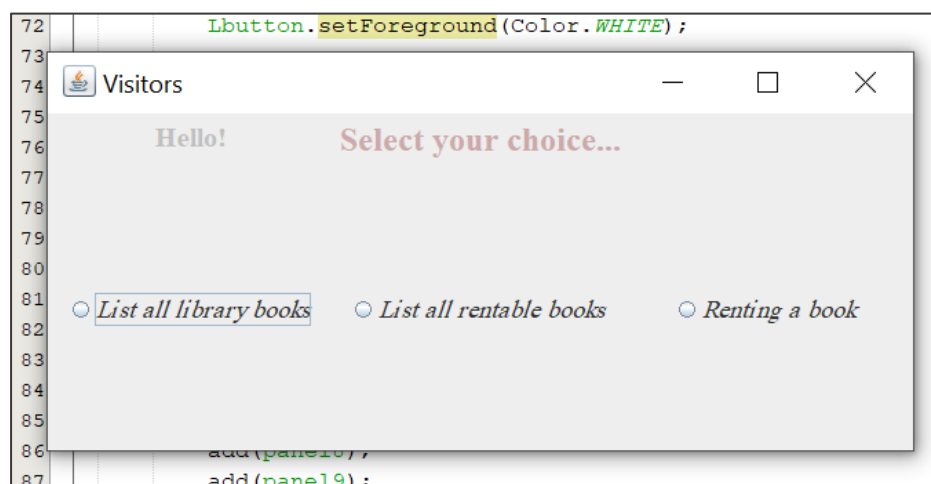

First Window

## 1.2 Project Windows: Visitor Window

When the user's chose "Visitor", 3 options will appear. And they are:

- List of all library books
- List of all books available for rent
- Renting a book

Each option performs a task whenever the user chose it

### 1.3 Project windows: Librarian Window

When the user chose "Librarian" 4 options will appear. And they are:

- Add available books
- Remove unavailable books
- Library staff information
- Work with us

Also, each option performs a task whenever the user chose it.
